

Tree Sourcing & Supply Service

Care Transplanters can use our extensive contacts within the nursery industry to find the advanced tree species that you want. We can arrange for them to be delivered to your door or jobsite with planting instructions or we will gladly quote on installations within the Sunshine Coast region or for larger orders in Brisbane, the Gold Coast or further afield. If you are after 200L plants or larger in-ground specimens, talk to us and take the hassle out of searching yourself. Whether it is a feature tree or number of street trees you want, we can help you with all aspects of supply, delivery and installation. Please browse through our list of species sourced from growers within S/E Queensland & Northern NSW. If there is something you can't find on the list, we would be glad to try for you, just ask us!

If you are after smaller stock, please don't hesitate to ask although there will usually be a 10 tree minimum for sourcing such stock.

Natives & Street Trees

- *Acmena Hemilampra*- Broad-leaved lilly pilly- 200L- ex ground
- *Agathis robusta* – Qld Kauri 200L- ex ground
